

Weatherization Laborer

This position pays \$120.00 per 8-hour day to start.

Job Description:

Anura Energy is looking for hard workers to join our Air Sealing team and Insulation team. The position is for an immediate hire. You could start this week!

The work involves sealing around pipes and cracks in attics and installing insulation in apartment buildings. Willing to train, exact experience is not required. Although, any applicant must be very comfortable working in attic space and have basic construction knowledge. The most importantly is reliability and hard work. You must be physically fit enough to work an 8-hour workday and be willing to work in hot attics.

Hours:

40 hours per week on average. Overtime available.

Pay:

This position pays \$120.00 per 8-hour day, to start. If you demonstrate dependability and hard work, then your hourly rate will increase. If you have more experience, we will negotiate a higher rate to start.

Questions:

If you have any questions at all, please contact us through the email link. We look forward to hearing from you.
